

# Halter Measurement Guide for Custom PHT Halter

## Measure the Existing Halter:

Measure Strapping Only, from hardware to hardware or hardware to end.  
Then measure inside diameter of ring between cheeks and crown.

### Existing Halter Parts

**Crown:**

**Crown Buckle:**

**Rings:**

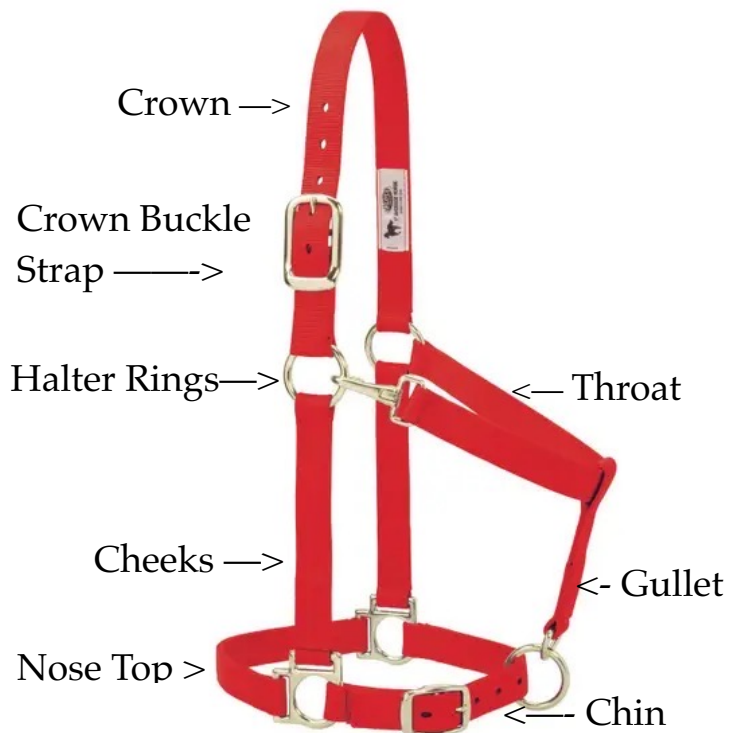

**Cheeks:**

**Nose Top:**

**Chin:**

**Gullet:**

**Throat:**

## Measure the Horse:

Please measure actual horse parts, actual size - not tight, not loose.  
I'll add extra for comfort and adjustability.

### Horse Part Measurements:

**COM:**

(Corner of Mouth to COM, over pole)

**Browband:**

(Behind Ear, across face,  
to behind other ear)

**Noseband:**

(Complete)

**Cheek:**

(Eye to COM)

**Throat:**

(Completely around head)

**Gullet Strap**

(Between Throat and Chin)
